August 6, 1998

Dear Mr. Berg.

Spanbler house is on the property where Taigh Black Turner, my mother, and the original designer of Mountain Hill, was born. Only a portion of the original house remains. Three of the four rooms are named for members of my family!

I appreciated your telephone call a week or so ago. Although I am disappointed that the new plaques are not yet in place, I was aware from my telephone conversation with you in 1996, that the plaques could not go up until most of the dust producing work was done.

We will visit Memorial Hill on Tuesday August 18th and then have lunch at the Homestead Inn. My party includes my grandson, who is driving (in 78!), our three friends, Sean Salt Lake City (Dyden who knew my mother. We will probably reach the monument at about 11 a.m.

It would be wonderful if you could meet with us at the monument. We would be interested in details of the project which I understand will make the hill a public park. Do you have any samples of the plaques that will be put up?

Finally would you join us for lunch?
I will call you on Monday the 17th.

Sincerely
Bell Turner
